

**Kent Parry
Candidate for Trustee
South Davis Sewer District**

Having served one year on the board while mayor of Woods Cross, I know what is expected of board members and I support the mission statement of the district. My experience as an elected, public servant, qualifies me to serve on the board and I understand the responsibility and trust required of public service.

I aim to continue to provide quality services by supporting staff and management while advocating a pro-active approach to funding current and future facility needs. I espouse transparency and accountability and will be active in informing residents of district activities and issues via social media and other means of communication.

I have lived in southern Davis County for over twenty-five years along with my wife Kim and our four children. In addition to public service, my interests include gardening, lacrosse, volleyball, hiking, and running. I work at a family business in Holladay, where I was raised, and I have the time needed to serve in this position.

More information is available on Facebook at "Elect Kent Parry for South Davis Sewer District" or you may contact me directly. Thank you for your interest and support
