

# In the kitchen

**Clogged sink drains can ruin your home, too! Keep all sinks in your home clog-free by following these simple steps:**

- Fruit and vegetable stickers belong in the trash, not the drain.
- Always pour or scrape cooled fats, oils and grease into a covered, disposable container and throw it into your garbage or recycle it. **NEVER** pour fats, oils or grease down sink drains or toilets.
- Soak up remaining oils and grease with an absorbent material such as paper towels and throw into your garbage.

- Before you wash dishes, scrape food scraps, fats, oils and grease into your garbage.

## Handle Hazardous Waste with Care!

Common household products become "Hazardous Waste" when poured down a drain or flushed down a toilet because they harm our environment and wreak havoc on the District's sewer system.

**NEVER** dump paint, paint thinner, stain, antifreeze, oil, automotive products, household cleaners, fuels, pesticides, fertilizers, etc. down the drain. Instead, watch for local household hazardous waste collection events or bring these materials to:

**Wasatch Integrated Waste Management District**  
Household Hazardous Waste Facility at the Davis Landfill (just off of Hwy 193 in Layton)

Follow the signs to the landfill, call (801) 614-5600 or visit [www.wasatchintegrated.org](http://www.wasatchintegrated.org) for information and directions.

# THINK BEFORE YOU FLUSH

**Protect Your Family and Pets from Sewage Backups and Overflows!**

# An overflowing toilet can ruin your home in an instant!

Just a small amount of household waste flushed down the toilet (or dumped down the drain or garbage disposal) can clog pipes and cause nasty messes in your home, and expensive sewer backups in our community.

**AVOID CLOGS BY KEEPING THIS STUFF OUT OF YOUR TOILET!**

Baby & personal wipes

Tampons & applicators

Bandages, sticker backs & syringes

Cleaning wipes & paper towels

Whitening strips & their wrappers

Maxi pads & their wrappers

Photo illustration © 2015 Goldstreet Design Agency, Inc.

**CLOG**

## Did you know?

"Flushable Wipes" are a leading cause of sewer backups in our community. That's right, even if the package says "flushable", they should NEVER be flushed. They belong in the trash.

Cotton swabs & makeup pads

Dental floss

Kitty litter

Condoms & their wrappers

Hair

Prescription & over the counter (OTC) medications

**!** Unused prescription drugs and over the counter (OTC) medicines should **NOT** go down the drain. Visit [www.sdsd.us](http://www.sdsd.us) for proper disposal methods and drop-off locations.

**Flush ONLY toilet paper. Put trash in the trash can.**
